What is Public Allies?

Public Allies is a national movement committed to advancing inclusive excellence by engaging and activating the skills and confidence of our emerging leaders. We help our Public Allies serve their communities and get on successful pathways to higher education and careers.

We are seeking to build lasting relationships with community partners that support talented, emerging leaders in our community by hosting these AmeriCorps members in 10-month, paid internship programs. Our partners play a crucial role by providing invaluable personal and professional development.

Proximate Leadership

Public Allies has been at the forefront of nurturing talents of **proximate leaders**—individuals with lived experiences directly related to the communities or issues they lead.

One thing that sets Allies apart is their understanding of the issues in their communities and their ability to use their knowledge and experience to increase the capacity of Partner Organizations. 79% of Partner Supervisors reported their Allies brought life experience(s) relevant to the issues or community their organization serves that resulted in improving or growing services.

- 

10,000+
multi-generational, proximate-to-the-challenge leaders making change in their communities and beyond

- 

72%
of Allies reside in the city in which they serve prior to enrollment

- 

18%
of Allies serve at nonprofits where they previously participated in programming

The Benefits of a Public Allies Partnership

Capacity Building

Gain a part-time or full-time team member for 10 months to build your organization's capacity. See page 3 for more info.

Human Resources Management

Public Allies Arizona is an AmeriCorps program housed within the ASU Lodestar Center for Philanthropy and Nonprofit Innovation. All Allies are paid a stipend through ASU's payroll system. Your organization will be invoiced for the cost of the Ally's stipend, and that's it! We handle background checks, insurance, payroll tax, and W2s.

Program Support

You will be assigned a Public Allies staff Program Manager who works to support both you and your Ally. Program Managers meet with your agency's Ally supervisor a minimum of three times throughout the term, and we are always just a phone call away to support you and the management of your Ally.

Develop Future Community Leaders

We have a robust Asset-Based Community Development curriculum centered around capacity building. Allies use their work at your organization as the practicum element of their learning. Often, partners hire Allies after their term.

"I really think about our Public Allies as our community engagement workforce, there, with our team. Without a doubt, it's expanded my capacity to be able to be out and about in the community, to students from different communities."

"They helped me also to be a better version of myself. And when I say that, I mean hearing what they're learning and learning with them so I can be better for my community was certainly something that had stuck with me."

"I feel like we're doing community engagement by being a host site for Public Allies. But then, also, it feeds into our overall community engaged programming efforts as well. It's a lot of layers of really good stuff happening."

Requirements for Partnering Organizations

To be considered as a Partner Organization, your organization must meet the following criteria:

- Support the mission of Public Allies Arizona by making a commitment to developing, mentoring, and encouraging the growth of an emerging leader.
- Complete an application and participate in the interview, selection and matching processes.
- Be one of the following: 501(c)3; school; government agency; or 501(c)4 or 501(c)6 that does not engage in lobbying activities as defined under the Lobbying Disclosure Act of 1995.
- Have the ability to pay the partner's cost share. (See the next page.)
- Provide adequate office space (a desk and computer) and a position description with a clear, measurable service impact; position descriptions will be developed with a Public Allies staff member following the application submission.
- Designate one supervisor with whom an Ally would work with day-to-day and who would work closely with the Public Allies staff and attend scheduled meetings.
- Provide an adequate amount of capacity-building work for your Ally.
- Support an Ally in meeting graduation requirements and the goals outlined in the position description while providing quality mentor-mentee relationship with Ally.
- Participate in mandatory programmatic elements to include: 1) Time Logs, 2) Member Service Reflections, 3) Ally Impact meetings (minimum of two), 4) 360 Degree Assessment, and 5) End of Year Surveys & Assessments.
- Attend all Program Timeline events leading up to and during the program year as required.

Please note:

A review of position descriptions will be required with all Partner Organizations in order to best create capacity-building positions.

An application to the program does not guarantee that a match will be made or that an Ally will be placed at your organization. We strive to meet both the needs and the interests of the Ally and the Partner Organization when making the match to ensure the best fit possible for a successful internship.
